Twenty screens, and what they are made of

Most journeys are four to six of these. Each is shown with the organisms it is usually built from, top to bottom. It is a starting point: swap, add or drop organisms until the screen does its one job for your user.

M01

The Launch

Shows who the app is while it opens.

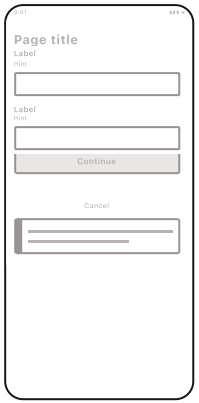

Loading — 2 of 14 rows

M02

The Gate

Lets people sign in, or make an account, before going further.

Page title · Text field · Text field · Button and link · Notice — 9 of 14 rows

M03

The Permission Request

Asks to use location, camera or notifications, and says why.

Picture · Title and intro · Button and link — 7 of 14 rows

M04

The Walkthrough

Explains the app in three or four panels before it starts.

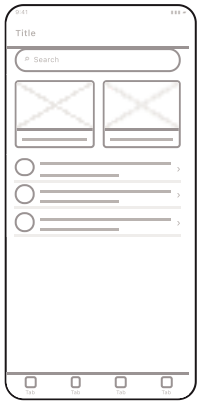

Picture · Title and intro · Two buttons — 6 of 14 rows

M05

The Home Tab

Opens the app every time, and leads to everything else.

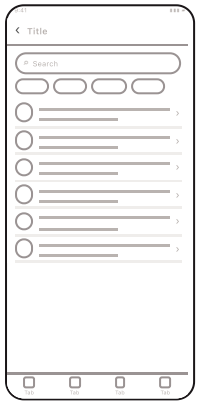

App bar with search · Two cards · List · Tab bar — 9 of 14 rows

M06

The List / Stream

Shows many things of one kind, to scroll through.

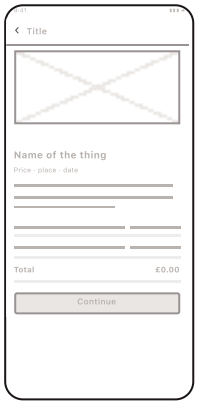

App bar · Search with filters · List · List · Tab bar — 10 of 14 rows

M07

The Detail

Shows everything about one thing, and what you can do with it.

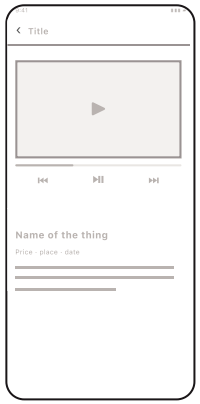

App bar · Picture · Detail · Price breakdown · Main button — 11 of 14 rows

M08

The Player

Plays something, and keeps the person in control of it.

App bar · Media player · Detail — 10 of 14 rows

M09

The Map

Shows where things are, and how to get there.

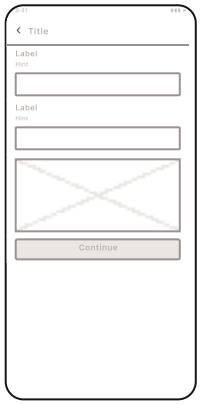

App bar with search · Map · List — 11 of 14 rows

M10

The Compose / Create

Makes something new: a message, a post, a report.

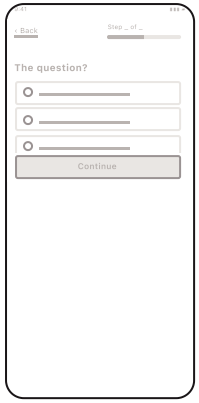

App bar · Text field · Text field · Picture · Main button — 9 of 14 rows

M11

The Form

Asks questions, best one at a time.

Progress header · One answer from a few · Main button — 6 of 14 rows

M12

The Checkout

Takes payment, showing exactly what for, before anything is committed.

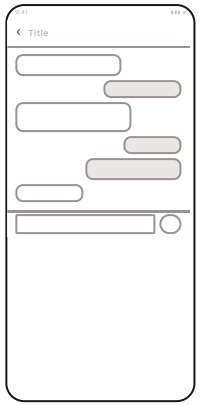

App bar · Page title · Price breakdown · Text field · Text field · Main button — 10 of 14 rows

M13

The Chat

Holds a conversation, newest message at the bottom.

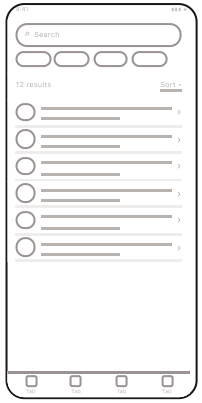

App bar · Conversation · Message box — 8 of 14 rows

M14

The Search / Discover

Finds things from a few words.

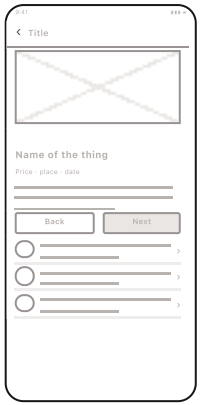

Search with filters · Results count and sort · List · List · Tab bar — 10 of 14 rows

M15

The Profile

Represents one person, place or thing, and what belongs to it.

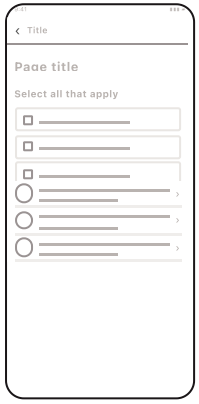

App bar · Picture · Detail · Two buttons · List — 11 of 14 rows

M16

The Settings

Lets people choose how the app behaves.

App bar · Page title · Several answers · List — 9 of 14 rows

M17

The System State

Says what is happening when there is nothing to show: empty, loading, offline, broken.

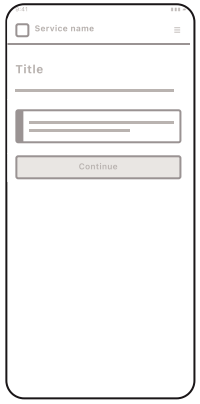

App bar · Empty state — 5 of 14 rows

J1

The Start Page

Says what a service does and who it is for, with one way in.

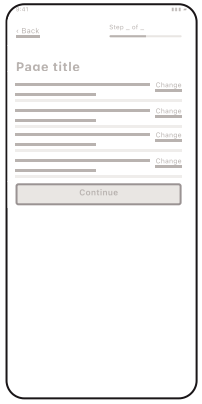

Service header · Title and intro · Notice · Main button — 6 of 14 rows

J2

Check Your Answers

Shows every answer back, each with a Change link, before anything is sent.

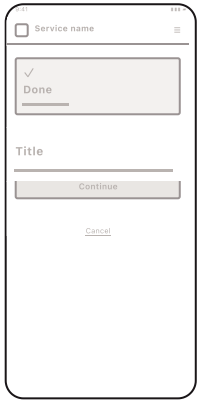

Progress header · Page title · Summary with Change links · Main button — 7 of 14 rows

J3

Done

Confirms it worked: a reference to keep, and what happens next.

Service header · Success panel · Title and intro · Button and link — 8 of 14 rows

Screen Design · Twenty screens · a usual recipe, not a rule: swap, add or drop organisms to fit your journey

Where each organism turns up

The same organism does different jobs on different screens: a list is the whole of a Search, and one part of a Home Tab.

App bar (1 row)
